Please select the option that best describes your skill level for each competency related to:
Promoting self-monitoring of type II diabetes after discharge

	I feel that I completely understand and can apply this skill confidently and consistently	I feel that I partially understand this concept and would like to practice it more to build my confidence and consistency	I feel that I do not understand this concept, that I need to practice a lot more to be confident, and may require some additional help to consistently achieve this skill
Communicating blood glucose monitoring instructions to the patient	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
Communicating insulin administration instructions to the patient	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>
Tailoring health education to meet the individual needs of the patient	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
Ensuring self-monitoring of blood glucose (SMBG) education results in the patient demonstrating safe insulin administration	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
Ensuring the patient can communicate the importance of SMBG	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
Ensuring the patient can communicate the importance of safe insulin administration	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>
Ensuring that the patient is able to verbalize all of the secondary complications resulting from poor self-management	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>

Please select the option that best describes your skill level for each competency related to:
Developing goals in collaboration with the patient to improve their lifestyle after discharge

	I feel that I completely understand and can apply this skill confidently and consistently	I feel that I partially understand this concept and would like to practice it more to build my confidence and consistency	I feel that I do not understand this concept, that I need to practice a lot more to be confident, and may require some additional help to consistently achieve this skill
Developing a therapeutic relationship so that the patient is comfortable sharing personal information	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
Helping the patient to identify perceived barriers for care at home	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
Allowing the patient to direct conversation	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
Helping the patient to identify possible solutions to overcome barriers	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>
Incorporating patient input into goals	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>
Ensuring that the patient can accurately describe the plan of care	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>

Please select the option that best describes your skill level for each competency related to:
Acknowledging own biases to provide judgement-free care while promoting the patient's adherence to their diabetes management regime

	I feel that I completely understand and can apply this skill confidently and consistently	I feel that I partially understand this concept and would like to practice it more to build my confidence and consistency	I feel that I do not understand this concept, that I need to practice a lot more to be confident, and may require some additional help to consistently achieve this skill
Allowing the patient to work within their own beliefs	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>
Accommodating the patient's decisions while respecting the hospital policy	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>

Please select the option that best describes your skill level for each competency related to:
Interpreting patient data to identify significant findings

	I feel that I completely understand and can apply this skill confidently and consistently	I feel that I partially understand this concept and would like to practice it more to build my confidence and consistency	I feel that I do not understand this concept, that I need to practice a lot more to be confident, and may require some additional help to consistently achieve this skill
Successfully identifying concerning findings	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
Implementing appropriate priority nursing interventions to prevent adverse events	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>

Satisfaction with Current learning

	Strongly Disagree = 1	Disagree =2	Undecided: do not agree or disagree with statement = 3	Undecided: do not agree or disagree with statement = 4	Strongly Agree =5
The teaching methods used in this simulation were helpful and effective.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
The simulation provided me with a variety of learning materials and activities to promote my learning.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
The teaching materials used in this simulation were motivating and helped me to learn.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
The way my instructor taught the simulation was suitable to the way I learn.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>

Self-Confidence in Learning

	Strongly Disagree = 1	Disagree = 2	Undecided: do not agree or disagree with statement = 3	Agree = 4	Strongly Agree = 5
I am confident that I am mastering the content of the simulation activity that my instructors presented to me.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
I am confident that this simulation covered critical content necessary for the mastery of the clinical course I am currently enrolled in.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
I am confident that I am developing the skills and obtaining the required knowledge from this simulation to preform necessary task in the clinical setting.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
It is my responsibility as the student to learn what I need to know from this simulation activity.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
I know how to get help when I do not understand the concepts covered in the simulation.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
I know how to use simulation activities to learn critical aspects of these skills.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
It is the instructors responsibility to tell me what I need to learn of the simulation activity content during class time.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>

What were the key positive aspects of the simulation?

I liked how we were able to gain insight on what homecare nursing can be like and I also liked how this lab encompassed many different complications that could arise with uncontrolled diabetes.

How do you think the key aspects of the SIM can be improved?

I feel this SIM could have been improved in the first scenario as I still feel unsure of how a homecare visit is supposed to run but it was a nice introduction to this area of nursing
